CALICUT UNIVERSITY SOCIAL SERVICE PROGRAMME (CUSSP)

Objectives

The objective of higher education can be accomplished only when its social obligations are fulfilled. It is with the intention of developing social outlook and voluntariness for service among students, Calicut University had made social service programme for obtaining the first degree.

The new generation has to be trained in such a way that they are capable of showing social awareness and commitment towards society, whatever be the realm of life they eventually reach. They should gain the training to take up challenging social assignments. They must be able to realize the realities of life, the miseries and hardships of common people through the social service activities. This new knowledge which cannot be gained from classrooms, no doubt, will make the higher education more meaningful and effective. Therefore, all activities that are beneficial to the society those in which the students indulge either alone or in groups or as joint ventures with other social organisations or autonomous institutions come under the purview of Social Service.

In this programme, a student has to complete 12 days of social service. This has to be completed in the first four semesters; 3 days in each semester. For the regular programme the student has to work in a Panchayath or Local body or in a hospital/ poor home or old age home or in a Pain & palliative centre or any social work assigned by the College authorities. Students who engaged in College Union activities and participate in sports and cultural activities in Zonal level have to undergo only 6 days of CUSSP during the entire programme. The whole documents regarding the student should be kept in the college and the Principal should give a Certificate for the same. The list of students (successfully completed the programme) must be sent to the University before the commencement of the fifth semester examinations. A College level Co-ordinator and a Department level Co-ordinator shall be appointed for the smooth conduct of the programme.
